

# Revival

Jordan Dillon

## Verse 1

There's a fire that's rising up  
A revival of faith and love  
Generations past knew that well-worn path  
But we need a move of God in us today

## Verse 2

What You've done You can do again  
You don't start something You won't end  
A heart that's wholly Yours is good kindling for  
The fire of a revival today

## Chorus

Bring revival once again  
Let Your light shine out as Your truth breaks in  
Bring revival Spirit breathe  
And let revival start in me

## Verse 3

O that nations would sing Your praise  
Songs like incense a fragrant flame  
If a wildfire starts with a single spark  
Ignite a holy fire in us again

## Bridge

Here I am  
In Your hands  
Take this life and let it be  
All to You an offering
